THIS IS A PRE-ENROLMENT APPLICATION:

This information will be entered onto our pre-enrolment database.

In February/March of the year prior to the requested enrolment, a prospectus and full application form will be sent to the student's address. We will endeavour to maintain email contact with you to ensure we have the student's current address for this purpose. The data requested on that form will ensure that up-to-date information can be presented to the Enrolment Committee when considering the applications for the following year.
