TRUSTEE PROFILE: JEREMY HIGGINS

I joined the Board of Trustees in mid-2017. I am a quantity surveyor with experience in the process and costing of the commercial construction industry, working primarily with local government and schools.

Earlier in my career I was involved in the repair and rebuild of the social housing portfolio for the Christchurch City Council.

I graduated Canterbury University with a Masters in Engineering Management, after completing a degree in chemical and process engineering. I hope to bring valuable advice and to assist the board in making informed decisions.

I am former St Thomas student and the husband of an ex-Villa girl and current Villa Maria teacher.
