TRUSTEE PROFILE: STEPHANIE TOWNSEND

In my career to date, I have worked in a variety of fields including Health Care, Human Resources and in a commercial environment. My husband and I own two businesses and I am fortunate enough in my role as a consultant to work closely in a number of businesses across a variety of industries.

My skill set and strengths lie in people management and capability, financial management, businesses development, in addition to having strong commercial acumen.

I welcome the opportunity to share the skills and experience outlined above in the role as a Director on the Board of Villa Maria College Christchurch Ltd and on the Villa Maria College Board of Trustees. Effective people management and a positive financial position are essential in the success of any organisation and I enjoy the opportunity to support the boards in this.

As a Villa Maria College “old girl” and a practising Catholic, both Villa and the Catholic faith are very important to me. I have been very fortunate in the opportunities I have been given in my life to date, I believe very strongly in giving back the community to ensure others are wherever possible given similar opportunities to succeed in life.
