## VENUE HIRE: THE AUDITORIUM

The Villa Maria College Auditorium is a modern facility located at the entrance to the College, off the Peer Street driveway. The Auditorium was constructed in 1998, designed by architects Vial and Ballaby Ltd.

The Auditorium has two entry foyers, quality sound and lighting equipment, and a large stage measuring approx. 18m wide and 6m deep, but only has small wing spaces. There is a front curtain, mid stage black curtain and two sets of black tabs. Curtains are operated by hand pulley. The rear wall of the stage is painted white.

The stage has a grid for hanging lights, and there are several stage lights available including spot light. The control room has a lighting board, 12 channel dimmer pack, and a small sound mixing desk (two mic channels and three line channels).

The Auditorium has a small kitchen facility with fridge, zip hot water dispenser and dishwasher. There are bathrooms within the Auditorium itself. The Hall can be hired as a green room or change room.

You can also hire trestle tables, the College piano, and lectern with microphone.

The Auditorium seats up to 400 pax. 180 are fixed seats in raised tiered seating, the remainder of the seats are stackable chairs that can be locked together to form rows.

The maximum capacity for the entire Auditorium building is 500, which includes guests, performers, stage hands and technicians.
