## **TRUSTEE PROFILE: CAROL McSWEENEY**

I joined the Villa Maria College Board of Trustees in the beginning of 2021. My career background is within Health (mainly nursing) here in New Zealand, Australia, and the UK. My roles have been varied, including Orthopaedics, Research, Case Management, Infection Prevention and Control, and I am currently an Immunisation Coordinator for the Canterbury region. I provide clinical support for all things immunisation/vaccine related, formulation and review of organisational policy and procedures. I have previously been a Proprietor's representative on a primary school Board of Trustees for seven years.

I have post-graduate qualifications in Leadership and Management and Auditing in Healthcare. I believe that some of my skills will be transferable to the education sector and I hope to offer some benefit to the board. I am looking forward to helping provide an environment where students can fully participate in their education, through effective governance led by Mercy values.

I am Mum to three, a son who completed his five years at St Bedes College in 2020 and is now at University, another son in Year 12, and a daughter who started at Villa in Year 9 in 2021.
