TRUSTEE PROFILE: JOHANNE CURTIS

I joined the Villa Maria College Board of Trustees in 2021 as a Director on Board of Villa Maria College Ltd and on the Villa Maria College Board of Trustees. I am very pleased to have this opportunity be able to support the school and community for present and future needs. I am a past Villa Maria student, and I have one daughter who has started in Year 9, 2021 with another to attend in 2023.

My career has mostly been in food science, quality management, risk management, supplier auditing and women's health management. I hope to be able to share the skills I have learnt over the years to give back to the school and community. I am passionate about providing opportunities for my girls to grow and learn. The school has changed a great deal since I was last here in 1989, however the special character remains the same and I am looking forward to support Villa Maria College with any future requirements.
